

List of Figures

Figure 1-1. Kendon’s gesture/language continuum.	9
Figure 1-2. Active Worlds virtual world browser.	13
Figure 1-3. Pen gesture controls avatar gesture.	19
Figure 2-1. Typical avatar world in <i>blaxxun</i> .	23
Figure 2-2. The Palace, one of the first graphical chat worlds	24
Figure 2-3. Thumbnail panel from The Palace showing the default avatar.	25
Figure 2-4. Traveler avatar world where avatars are heads.	26
Figure 2-5. Gesture/Mimics panel from VLNET NVC application.	28
Figure 2-6. Controls for acting in virtual reality application.	30
Figure 2-7. Comic Chat avatars.	31
Figure 2-8. Emotion wheel.	31
Figure 3-1. “Nancy,” a VRML avatar designed by Nancy Ballreich.	48
Figure 3-2. Each gesture consists of several motion capture samples.	50
Figure 3-3. Production of avatar gesture from pen gesture input.	51
Figure 4-1. Interpolation between two trajectories by parameter value a .	68
Figure 4-2. Spherical interpolation.	68
Figure 4-3. Multilinear interpolation for the case of two parameters	69
Figure 4-3. Fast and slow curves of different durations.	70
Figure 4-4. Time dilation for trajectories of different durations.	71
Figure 5-1. Emotion representation as a continuous dimensional space (after [17]).	76
Figure 5-2. Personal avatar gesture samples in two-dimensional emotion space.	81

Figure 5-3. Finding the three closest neighbors of the new point p_0 .	81
Figure 5-4. Multistep interpolation of gesture trajectory from enclosing triangle.	82
Figure 6-1. Cursive window next to a VRML world browser.	85
Figure 6-2. Conceptual model of multi-user virtual world application	87
Figure 6-3. State of system before user log's in to virtual world.	90
Figure 6-4. Virtual world server updates virtual world clients.	91
Figure 6-5. Virtual world browsers download the new user's avatar.	91
Figure 6-6. Gesture commands sent to all copies of user's avatar.	92
Figure 6-7. Cursive functional modules.	94
Figure 6-8. (a) Letter identity selects particular gesture; (b) features modulate motion.	95
Figure B-1. Animation data file format	121
Figure B-2. Basic sweep gesture.	122
Figure B-3. A small version and a large version of sweep gesture.	123
